Handi-House is the oldest, most established PORTABLE BUILDING manufacturer in the Southeast, manufacturing and striving for excellence since 1966, close to 50 years of distributing storage buildings throughout the South. At Handi-House, they know their future depends on "You", our valuable customers. Repeat business and referrals are the reasons they have existed through all these years.

If you notice The Shed Store has a wide variety of Handi-House structures and styles of storage buildings to meet each customer's individual needs. We range from the most economically priced units to the more elaborate buildings to meet certain state or residential code requirements.
