

Screened Rooms

Our screen rooms are standard with steel studs, no windows, screen door. The number of lights and receptacles depends on the size of the unit ordered. Screen rooms also have a treated plywood floor or treated 2x6 lumber if requested for an additional cost.

Vinyl Sided Buildings

This unit has proven to be extremely popular due to the fact that the vinyl is available in so many colors that match the exteriors of many homes and office buildings. This building comes standard with our mobile home type door and metal roof. As with our other units, a shingle roof is offered if you request and a variety of different style doors and windows.
