

Double-Wides

This unit is constructed with a heavy-duty truss system to support its extra size. Mainly used for carports or small workshops, this unit is versatile and economically priced for its size.

New Type Eave

This is our most economical basic-style storage building, available in both wood-stud and steel-stud frames. This shed offers the basic in storage with still an attractive appearance that would fit your needs. Our aluminum framed door is standard on this unit, however you can substitute any mobile home type or roll up door.
